

ARKA Health — FDA Pre-Submission (Q-Sub) Package Manifest

Package version: 1.0 (Final) · **Date:** June 9, 2026 **Sponsor:** ARKA Health, Inc. · **Contact:** Arri Kanna, Founder — arrihantk@gmail.com **Submission type:** Pre-Submission (Q-Submission) — request for written feedback and teleconference **Channel:** CDRH Customer Collaboration Portal, via PreSTAR2 v3.0

This package requests FDA's written feedback on the regulatory status of two software functions of the ARKA platform: **ARKA-CLIN**, designed to meet the four Non-Device Clinical Decision Support criteria under FD&C Act §520(o)(1)(E), and **ARKA-INS**, administrative-support software under §520(o)(1)(A). A reference-image viewer is a separate display function outside the scope of this submission.

Package contents

#	Document (this folder)	Final PDF (./q-sub-final/)	Purpose
01	01_cover_letter.md	ARKA_QSub_01_Cover_Letter.pdf	One-page cover letter and statement of request
02	02_product_description.md	ARKA_QSub_02_Product_and_Function_Description.pdf	What each function does, data flow, design boundaries
03	03_intended_use_statement.md	ARKA_QSub_03_Intended_Use_Statement.pdf	Intended use and indications for ARKA-CLIN and ARKA-INS
04	04_fda_questions.md	ARKA_QSub_04_Questions_for_FDA.pdf	Four concurrent style questions (FDA's recommended ceiling)
05	05_multiple_function_analysis.md	ARKA_QSub_05_Multiple_Function_Analysis.pdf	Function-level function regulatory map per FDA's

#	Document (this folder)	Final PDF (./q-sub-final/)	Purpose
			multiple-function framework
06	06_INS_administrative_support_memo.md	ARKA_QSub_06_ARKA-INS_Administrative_Support_Memo.pdf	Feature-level support for the §520(c)(A) position
07	07_meeting_request.md	ARKA_QSub_07_Meeting_Request.pdf	Meeting type, format, preferred dates, agenda, attendees
08	08_labeling_attestation.md	ARKA_QSub_08_Labeling_Attestation.pdf	No-misbranding attestation with dated repository evidence

Supporting evidence (attach from the repository)

Evidence	Location	Supports
Model card (XGBoost refinement model)	ml-service/MODEL_CARD.md	Criteria 2 and 4; Question 4
Scope boundary (viewer fenced out of CDS)	docs/SCOPE_BOUNDARY.md	Criterion 1; multiple-function analysis
CI enforcement configuration	.github/workflows/go-live.yml + scripts/regulatory-checks.ts, scripts/lint-scope-boundary.ts, scripts/lint-cards.ts	Criterion 1 firewall; change control
Sandbox screenshots (5)	docs/regulatory-evidence/sandbox-screenshots/	Criterion 4 transparency; product description
Clinical sign-off log and change-control procedure	docs/CLINICAL_SIGN_OFF_LOG.md	Question 3
	lib/compliance/fda-disclosure.ts	Labeling attestation

Evidence	Location	Supports
On-card FDA disclosure (v1.2.0)		

Pre-filing gates (complete before submitting)

1. **Clinician sign-off — IN PROGRESS.** At least one licensed clinician must review the rule library, citations, feature catalogue, and card language and sign a dated entry in `docs/CLINICAL_SIGN_OFF_LOG.md`. Do not file before this gate closes.
2. **CDRH Portal account** registered under the same name, organization, and email used in this package (arrihantk@gmail.com).
3. **PreSTAR2 v3.0** downloaded locally and completed; the status banner must read “eSTAR COMPLETE” before upload.
4. *Recommended:* run FDA's Digital Health Policy Navigator for ARKA-CLIN and ARKA-INS separately and retain screenshots; send a short informal note to DigitalHealth@fda.hhs.gov before filing.

Assembly order (PreSTAR)

Attach PDFs in numerical order under the prompts for cover letter, product description, intended use, questions, and meeting request; attach documents 05, 06, and 08 plus the repository evidence under supporting information. Keep all attachments on a local drive while editing PreSTAR, and sign the Truthful & Accurate statement last.

This package requests FDA feedback; it does not represent and must never be described as FDA approval, clearance, registration, or endorsement.
