1. HOW TO USE THIS PACKAGE

This index accompanies the compliance documentation package of ARKA Health, Inc. The package is organized so that a hospital security-review team, payer vendor-risk analyst, or investor can locate evidence quickly: governance first, privacy second, security controls third, contracts fourth, and readiness assessments last. Each document carries its own version block, revision history, and officer adoption signature; the package as a whole is governed by ARKA-GOV-001.

For a 10-minute review: read the Data Security Overview one-pager, then ARKA-RDY-004 (roadmap and claims standard). **For security diligence:** add ARKA-SEC-001 (master policy), ARKA-RDY-001 (risk assessment), and ARKA-RDY-002 (SOC 2 readiness). **For contracting:** ARKA-LGL-001 (BAA template). **For demo-related questions:** ARKA-DEMO-001 (no-PHI attestation).
