

ARKA HEALTH, INC.

DATA CLASSIFICATION, RETENTION & SECURE DISPOSAL POLICY

Device and media controls, 45 C.F.R. § 164.310(d); Confidentiality criteria, SOC 2 (C1)

ARKA-SEC-011 · Version 1.0 · Confidential — Internal

Document No.	ARKA-SEC-011
Version	1.0
Effective Date	June 10, 2026
Last Reviewed	June 10, 2026
Document Owner	Arri Kanna, Founder & Chief Executive Officer — Privacy & Security Officer
Approved By	Arri Kanna, Founder & Chief Executive Officer
Classification	Confidential — Internal
Review Cycle	Annual, and upon any material change in operations, systems, or law

This document contains confidential and proprietary information of ARKA Health, Inc. (“ARKA”). It is furnished for informational and compliance purposes, may not be reproduced or disclosed to any third party without the prior written consent of ARKA, and must be returned or destroyed upon request. Nothing in this document constitutes legal advice.

1. CLASSIFICATION SCHEME

Class	Definition	Baseline handling
Restricted — PHI	Protected Health Information, incl. ePHI, received or created under a BAA	Production systems only; encryption per ARKA-SEC-004; access per ARKA-SEC-003; logging per ARKA-SEC-005
Confidential	Non-public business, Customer, security, and personnel information; source code; credentials	Encryption at rest/in transit; need-to-know access; no public or personal storage
Internal	Operational information not intended for publication	Company-managed systems; no external sharing absent approval
Public	Information approved for publication (website, published documentation, synthetic demo content)	Integrity controls; publication approval by document owner

Information defaults to **Confidential** until classified. Aggregations assume the highest classification of any constituent element. Synthetic demonstration data is Public by design but shall be labeled as synthetic wherever a reasonable observer could mistake it for PHI (ARKA-DEMO-001, § 4).

2. RETENTION SCHEDULE

Record type	Retention	Basis
HIPAA program documentation (policies, risk analyses, training records, incident files, BAAs, accounting logs)	6 years	45 C.F.R. §§ 164.316(b)(2)(i), 164.530(j)
Security-relevant audit logs	6 years	§ 164.312(b); evidentiary needs
Customer PHI (production)	Per BAA / Services Agreement; return or destruction on termination	ARKA-LGL-001, § 5.3
Backups containing PHI	35-day rolling + 12-month archival snapshots	ARKA-SEC-007, § 3
Corporate, tax, and governance records	Per statutory requirement (minimum 7 years for financial records)	Counsel guidance
Operational telemetry without security relevance	≤ 13 months	Data minimization

Retention periods are suspended for records subject to a litigation hold issued by counsel; holds are documented, communicated to custodians, and released in writing.

3. MEDIA CONTROLS AND DISPOSAL

1. **Cloud media.** Decommissioning of cloud storage relies on provider-attested sanitization (each Tier 1 provider's SOC 2 / ISO attestations cover physical media destruction); ARKA-side disposal consists of cryptographic erasure — destruction of the data-encryption keys — followed by deletion, which together render data unrecoverable.
2. **Endpoints.** Workforce endpoints are full-disk encrypted from first provisioning; upon decommissioning, devices are cryptographically erased using the platform's secure-erase facility and the erasure recorded (device, serial, method, date, operator) in the asset inventory.
3. **Removable media** are prohibited for any Restricted or Confidential information (ARKA-SEC-012, § 3); any lawfully required exception uses hardware-encrypted media approved in writing by the Security Officer and is sanitized per NIST SP 800-88 (Purge) after use.
4. **Paper.** ARKA operates paperless with respect to PHI; any incidental paper record containing Confidential information shall be cross-cut shredded.
5. **Records of movement.** Receipt, transfer, and disposal of any hardware or media containing ePHI are recorded per 45 C.F.R. § 164.310(d)(2)(iii), including the person responsible.

4. CUSTOMER DATA RETURN

Upon termination of a Customer relationship, PHI is returned in a documented, machine-readable export (FHIR R4 resources or agreed format) or destroyed, at the Customer's election, with written certification within sixty (60) days, subject only to the infeasibility provisions of ARKA-LGL-001, § 5.3.

DOCUMENT CONTROL & REVISION HISTORY

Version	Date	Author / Reviewer	Description of Change
0.9	May 22, 2026	A. Kanna (drafting); external review pending	Initial draft circulated for internal review and counsel comment.
1.0	June 10, 2026	A. Kanna, Privacy & Security Officer	Adopted as effective policy of ARKA Health, Inc. by written approval of the undersigned officer.

ADOPTION AND APPROVAL

The undersigned, being the duly designated Privacy Officer and Security Officer of ARKA Health, Inc., hereby adopts this document as an official policy of the Company, effective as of the Effective Date set forth on the cover page hereof. This document shall be reviewed no less frequently than annually and upon any material change to the Company's operations, information systems, or applicable law, and may be amended only in accordance with ARKA-GOV-001 (Information Security & Compliance Program Charter).
